

What's in it for Me?!

Understanding Value Engineering

If you've heard the following...

- We already do Value Engineering
- Oh Yes, I've Been VE'd before
- Value Engineering is only an effort in cost cutting
- Value Engineering is just for new design and construction"

... or anything else that sounds similar – **you need this seminar.**

Arizona SAVE International Chapter and **Western Council of Construction Consumers**, are providing this short, focused training to help you understand the What, Why and How of Value Engineering, plus the associated tools, including: Performance-based Decision Making, Function-based Design, Life Cycle Cost Analysis, and more. You can use these tools to improve your projects, as well as your programs, processes, and organization.

Value Engineering principles and tools have a broad variety of applications, such as:

- Project Delivery Process, MCDOT
- Echo Glen Children's Center, Washington
- Police & Fire Training Facility CMAR, City of Gilbert
- Walla Walla State Penitentiary, Washington
- Little Singer Community School, Bureau of Indian Affairs
- Wapatox Canal Planning Project, Bureau of Reclamation
- Ron de Lugo Courthouse Rehabilitation, General Services Administration
- Wolf Creek Dam Powerhouse Scoping Project, U. S. Army Corps of Engineers, Portland
- Project Initiation Document Process
- Design Standards Improvements
- Statewide Stakeholder and Public Involvement Process
- Geospatial Information System Improvement
- Document Retrieval System Improvement
- Hazardous Material Corporate Structure Development

Pat Miller is a Certified Value Specialist® and managing partner of RHA, LLC. In A/E/C industry for 20+ years, she teaches and leads teams worldwide through SAVE International® value methodology to achieve optimum balance between function, performance, quality, safety, and cost with a proper balance resulting in maximum value for the project. Pat has led VE study teams for federal, state and local government projects, including prison, hospital, schools DoD civil and military, embassies, water/wastewater, dams and transportation/transit infrastructure. Pat is SAVE International® Arizona Chapter President.

Gordon Rogers AIA, DBIA, CFM, Project Director with Kitchell, has a passion for facilities planning, and reaches across traditional barriers to integrate financial decision makers, design professionals, construction personnel and facility managers, covering the entire asset life-cycle, Master Planning, Capital Planning, Programming, Project and Construction Management, Engineering, Architectural Services and Facilities Management. His client-centric, pragmatic approach, combined with his broad experience in design, construction, finance, and strategic planning, provide solutions and build long-term relationships.

Wednesday, December 12, 2018, 9:30 AM - Noon
