How to be More Savvy in the Ways of Contractors

Owners can experience frustrations with what they see as “tricks” by some contractors on their projects to delay or to create opportunities for claims, etc.

This program for Owners is a great place to learn ways to avoid or curtail some of these troublesome practices, and keep your projects moving, on time, and on budget.

Some of the topics to be covered:

- The Contractor’s reservation of impact in change orders – why it should be avoided, and methods to deal with this issue
- “Constructive notice”, force majeure, and other tricks contractors use to manufacture claims
- Prompt Payment pitfalls, and how to avoid them
- Use of the California False Claims Act to manage claims

Presenter:

Mark Stapke, Stapke Law LLP

Benefit from his 33+ years of experience in handling contract, delay, differing site conditions, underground, prompt payment, and lien/stop notice claims. Learn how to have more successful, and less stressful, projects.
